SIGNALGRYD

SIGNALGRYD >> [ABOUT US](#)

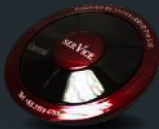

Designed For Your Business

Increase productivity and efficiency whilst redefining the customer experience with SIGNALGRYD's intuitive paging technology. We provide wireless paging solutions to help boost customer management, as well as both internal and external communication within the business.

Our Specialities:

Customer Paging Systems

Service Request Paging Systems

Queue Management Systems

Elevator Calling System*

**DEVELOPED FOR CONSTRUCTION & INDUSTRIAL SECTOR*

Applicable Industries:

Our systems work across a wide variety of industries and sectors, for both small and large enterprises. Our goal is to encourage businesses to adopt technology in order to improve automation, productivity and efficiency.

Automotive

Beauty & Cosmetics

Construction & Industrial

Educational Institutes

Food & Beverage

Government Institutes

Healthcare & Hospitals

Hospitality & Tourism

Logistics & Supply Chain

Manufacturing & Warehouse

Elevator Calling System

SIGNALGRYD >> ELEVATOR CALLING SYSTEM

Enhance your workers' productivity and service efficiency with SIGNALGRYD Elevator Calling System. Developed specifically for the Industrial and Construction Sectors, our calling system allows instant, secure and reliable communication at the touch of a button.

The simplistic design and function enables our system to operate strictly through radio frequency. No internet connection, or Wifi connectivity is required.

Hoist Elevator Paging Solution

SIMPLIFY COMMUNICATION

Reduce guessworks and errors with our radio frequency operated system, even in a noisy environment.

EFFICIENT WORK PROCESS

Workers can continue working even after making a elevator call since they can easily estimate when they will be attended to.

FAR VERTICAL RANGE

Our system operates wirelessly without using a power cable, and has a vertical range of up to 40 – 50 levels in height.

What We Offer

SIGNALGRYD >> WHAT WE OFFER >> HOIST ELEVATOR PAGING SOLUTION

Hoist Elevator Paging Solution

SIGNALGRYD's Hoist Elevator Paging Solution is **ideal for construction sites and industrial locations that use outdoor, indoor and freight elevators.**

Our paging solution is tested to have a vertical range of 40 – 50 floor levels in height, water and downpour proof, and resistant to humidity and grease. Additionally, they are packed with a built-in 600MAH Li-Ion battery-operated receiver, rechargeable transmitter call buttons that can last up to 6 – 12 months, and the option of a built-in or external antenna.

What's Included:

1

HOIST ELEVATOR RECEIVER:

Installed within hoist elevator and alerts the operator on which floor or platform requires service with an audible chime. Option to choose between 30-level or 50-level receiver.

2

TRANSMITTER CALL BUTTONS:

Ideally installed at each floor or level within the building to send call request signal to the receiver. Upon pressing of the call button, a signal with its location is sent to the receiver in the hoist elevator.

3

ANTENNA:

Key component in our wireless system to operate through radio frequency. Two models of choices between a built-in tie rod antenna or a 3 metres external antenna.

How It Works

SIGNALGRYD
ELEVATOR CALLING
SYSTEM

1

Request Service

Workers go to the Transmitter Call Buttons placed on each floor to request elevator, by pressing the button.

2

Alert Operator

Hoist Elevator Receiver installed within the elevator alerts the operator on which level or platform he needs to get to to assist the workers.

Suitable For

Construction sites and industrial locations that use outdoor, indoor and freight elevators.

Key Features:

Enhanced Vertical Range Distance

The vertical distance is able to reach up to **40 – 50 levels in height**, without the need of a signal repeater.

Waterproof & Weather Resistant

Fully sealed outer case for both the transmitters and receivers. Resistant to rain, downpour and humidity.

Portable Wireless Operation

Easy to install and dismantle. Our system operates wirelessly, without the need of a power cable.

Rechargeable Batteries

Powered by rechargeable batteries that can last up to 6 – 12 months.
